

FRUIT, LIKE BEEF IS UP IN THE AIR

Lemons From Palermo Come
High—Strange Demand for
Hothouse Stuff.

While lemons come from Washington, D. C., and other places, they will soon be eating none at all, the local dealers report that the summer season likewise fails to bring the reductions in the price of fruits that it should. All in all, it looks bad for that "goat" of the situation, the ultimate consumer. Peaches and cherries, which ought to be coming in with a rush about this time, are scarce and high, that few of the growers have them, while strawberries and blackberries are finishing a season in which they have never cost less than 12-15 cents a quart. At the price of 15 cents a quart, citrus fruits are taking a jump which makes all of their former status look feeble. Lemons are 30 cents a dozen and oranges 50 cents, with few to be had at that rate. The reason for this is neither trust nor tariff, according to a retailer, who discussed the matter; but is due to the complete failure of the California crops. Nearly all of the lemons now on the market are from the vicinity of Palermo, Italy, which is a long and expensive trip for any lemon to take. The oranges now in the market are Florida "Valencias," a new variety of late fruiting, from the State. But for this new invention, no oranges would be obtainable, as California has been depended upon for the late crop.

High-Bury Fruit.
The only other variety of fruit on the market are the hothouse grapes and peaches, which come to the gentle tunc of a dozen, wholesale, and \$2 a pound, respectively. At that, the dealers admit that they are insipid and tasteless, and that better eating fruit obtained for 50 cents. Yet there is a constant and heavy demand for the glass-grown stuff right in Richmond. It is used at entertainments, for presentation to sick persons, and as a variety of other purposes where display is the chief object.

This demand for stuff that is not good to eat at enormous prices illustrates what one retailer considers the variety of high cost of living—namely, American. The people, according to this retailer, will always groan at the prices and then buy the very thing that is the highest. As soon as something goes up, they are sure that they must have it, and this, he says, applies to staples as well as to hothouse luxuries. As an example, he cites the fact that early in the winter when the price of flour was forced up to \$7.50 a barrel by the heavy demand that the Balkan War made on the wheat crop, everybody wanted to buy flour, and there was a tremendous run on the flour stores, and that the price has slumped to \$6 a barrel, and no one seems to think of buying in an advance supply.

A similar astute grocer, in denance of the muck-raker's theory that the tariff and the trusts have very little to do with the high cost of living, makes an observation showing that such trifling things as the weather, international politics and the habits of the people are what really affect prices. Thus the present relatively low price of staple groceries is due in great measure to the fact that the weather has had a very mild winter. He asserts that the falling off in the amount of food purchased when the weather is relatively warm is amazing. The people did not want to keep up their calorific, and consequently the market for many staples is easy.

CONVICTED MEN SEE TIME EXPIRE

Williams and Rhea, Broad Rock
Distillers, to Surrender
at Noon.

John M. Rhea, convicted of complicity in the Broad Rock Distillery revenue frauds and sentenced to eighteen months in jail, yesterday indicated his intention of surrendering himself to the United States marshal to-day at noon, when the time limit for his appeal to the United States Supreme Court expires, to begin a service of his term rather than to continue his losing fight further.

His original bondman having suddenly died, Luther W. Williams, convicted for the same conspiracy, appeared in the United States Circuit Court of Appeals yesterday morning, according to Judge Pritchard's order to renew his bond. Williams had given for \$3,000, but this was yesterday raised to \$5,000 by the court. S. S. Epperson, his father-in-law, went on Williams' security. Williams also must begin service of his sentence to-day at noon, unless he secures a writ of error from the Supreme Court. He has given no indication of whether or not he will give up the fight now.

Wood Secures Writ.
Clarence B. Wood, president of the Broad Rock Distilling Company, who was found guilty of complicity in the fraud and sentenced to eighteen months in the Atlanta penitentiary, has secured a writ from the Supreme Court on the plea of former jeopardy. He claimed immunity from criminal prosecution on the ground that he had already been punished by the confiscation of his distilling plant through civil proceedings. This plea is not applicable in the case of Williams and Rhea, who were not found guilty of conspiracy from whiskey distilled at the Broad Rock plant by a jury in the United States District Court in April, 1912. Wood was given eighteen months' term and \$500 fine, and Williams sentenced to twelve months and a \$500 fine. An appeal taken to the United States Circuit Court was refused in January, 1913. In turning down the distillers' plea, the Circuit Court allowed the convicted men until June 5 to show cause why they should not be punished by the confiscation of their distilling plant. Wood has obtained his writ, but the other two men have not made application for theirs. Judge Pritchard will this morning send down a mandate to Judge Waddill, of the United States District Court, officially communicating the action of the Circuit court of the appeals. Williams and Rhea must present themselves to Judge Waddill at 12 o'clock noon, or forfeit the \$5,000 bond each is under. Rhea lives in Richmond and Williams near Danville.

Annual Convention Ends.

Southern Railway Surgeons Will Meet

[Special to The Times-Dispatch.]

Hampton, Va., June 4.—After the election of officers and selecting Washington as the place of holding its convention in 1914, the Association of Southern Railway Surgeons completed its eighteenth annual convention in Hotel Chamberlin, at Old Point, this afternoon and adjourned.

A part of the final session, aside from the election of officers, was the address of Colonel W. A. Henderson, of Knoxville, the general attorney for the Southern Railway Company. Colonel Henderson received himself a reception from the physicians when he suggested that a medical department should be organized by every railway system in the country, and that one of the vice-presidents of all companies should be a physician. He argued that when a physician makes a report of an accident, few lawyers understand the technical terms, but with the medical department the legal end of the roads would receive great benefit.

Colonel Henderson has been the chief counsel for the Southern Railway for forty years, and the Association considered as countrywide by the surgeons. There were more than 400 of the surgeons at the convention.

The officers for the coming year are as follows: president, Dr. R. J. Noble, of Selma, N. C.; first vice-president, Dr. J. S. Weathers, of New Albany, Ind.; second vice-president, Dr. W. P. Horton, of New Wilkesboro, N. C.; third vice-president, Dr. G. E. Thornton, of Memphis, Tenn.; fourth vice-president, Dr. P. McCullom, of Greensboro, Ala.; secretary and treasurer, Dr. J. U. Ray, of Woodstock, Ala.; member, executive council, Dr. R. R. Shands, of Washington.

BROAD STREET TO HAVE WHITE WINGS

Crack Clean-Up Squad Promised
as Soon as Apparatus
Arrives.

As soon as apparatus ordered by Superintendent Cohn, of the Street Cleaning Department, arrives, Broad Street will have a permanent "white wings" squad. The alarm has been sounded often in the past, but this time, it seems, it is to be followed by the goods. An order has been placed for six hand apparatus to be used on the Broad Street division exclusively, in sweeping up and carrying away street litter and rubbish.

"This apparatus has been ordered some time ago," said Mr. Cohn last night, "but a mistake in filling the order has delayed its delivery. The error has been corrected and I expect the apparatus to be here in the next few days. As soon as it arrives the white wings squad will be organized and put into service."

It is Mr. Cohn's intention to have one man with each outfit continually on duty on Broad Street. Each man will be assigned a certain territory, which he will be expected to keep clean all the time. If the experiment is found to be successful, additional apparatus will be ordered, and the white wings service will be extended to other downtown streets.

The Street Cleaning Department is still compelled to dispose of refuse at the public dumps. The practice, while necessary, because people still continue to mix perishable matter with noncombustible materials, is unhealthy as well as a nuisance to people living in the neighborhood. The department urges the perishable matter, as far as possible, be eliminated.

The garbage disposal work is at present considerably handicapped because one of the incinerators is undergoing repairs. A new lining for the incinerator out of commission, was ordered last winter, but was not received until recently, necessitating the closing of the machine of the year to permit its installation.

ANOTHER MILLION GIVEN TO TRINITY

Additional Endowment Raised.
Final Address by Senator
Cummins.

[Special to The Times-Dispatch.]

Durham, N. C., June 4.—United States Senator Albert Baird Cummins, of Iowa, was the orator of the day at the graduating exercises at Trinity College commencement to-day. His speech was a discussion of the problem which he said was one of the greatest facing this nation to-day, that of the distribution of the wealth of the country among the people of the country. He told the graduates that there was a place in the ranks for them and that every one of them had a chance to rise.

Among the important announcements of the exercises was that the additional \$1,000,000 endowment for the college had been raised, the campaign for which has been on for more than a year. The total aggregate amount of the endowment was \$1,425,000. Of this amount \$425,000 has been expended for buildings. The portion of this aggregate which will become income producing and constitute an addition to the endowment of the college is \$1,000,000.

This handsome new endowment of a Southern college is due in the main to the generosity of Benjamin N. Duke, of Durham, who has given \$1,000,000 to the college. The Duke family has contributed to the funds recent years \$1,149,300. The General Education Board has given \$150,000, and the remainder comes from many friends of the college.

Fifty-four graduates received diplomas to-day, two others receiving the degree of masters of arts, while upon one was conferred the degree of master of science.

This afternoon at 7:30 o'clock athletic honors were awarded in the open air in front of Craven Memorial Hall. Members of the baseball team received their "C" and other honors were conferred. Following this the graduating class gathered about the flag pole, and to the peal of the big college bell, the flag was raised. The flag as the sun sank in the West it was folded up by the president of the class and handed to President Few, to be laid away in the archives of the college, along with the records of the class of 1913. The big graduation class was the most brilliant and fashionable event of the commencement. It lasted from 9 to 12 o'clock, and officially closed the college year.

Miss Alma Luck.
[Special to The Times-Dispatch.]

Ashtand, Va., June 4.—A death under peculiarly distressing circumstances, and which more intimately affected a larger number of people than any other in this community, occurred to-day, is that of Miss Alma Luck, who died at the Randolph-Macon Institute in Lexington, Va., this morning at 10:30 o'clock after an illness of several weeks. Miss Luck was the daughter of a young girl of seventeen years, had a view of entering in mission with a return to her home here and under an operation for appendicitis. This morning she was in the hospital, and was apparently in good health until two days ago, when she suddenly became ill. She was well, but her condition was not regarded as serious until about 4 o'clock on the morning of her death, when doctors and trained nurses used every effort to relieve her, but she died. The funeral will be held at the home of the deceased, and will be held at 3 o'clock on Friday afternoon at 4:30 o'clock. Revs. S
